

M.TASK

Alarm and monitoring system

— PRESENTATION —

M.TASK is the powerful Marinelec Integrated Alarm, Control & Monitoring System.

Our solution has been developed to meet the shipowners new challenges:

- ▶ Scalable modular system
- ▶ Reliable & secure access
- ▶ Modern & intuitive interface
- ▶ Analysis assistance
- ▶ Customizable (functions, mimic, language)

— FUNCTIONAL CHARACTERISTICS —

Main functions

- ▶ Alarm monitoring (bilge, doors, engine, etc...)
- ▶ Tank level measurement
- ▶ Remote control (lighting, pumps, valves, fans, etc...)
- ▶ Engine watch alarm management
- ▶ Duty officer alarm management

Marinelec tools

- ▶ Curves
- ▶ Hour counters
- ▶ Alarm & page printing
- ▶ Data selection for VDR
- ▶ Remote alarm transmitter (sms/ email)

I/O interface

- ▶ Digital inputs & outputs
- ▶ Analog inputs (0/10V, -/+10V, 0/20mA, 4/20mA, PT100/1000, thermocouple)
- ▶ Analog outputs (0/10 V, -/+10V, 0/20mA, 4/20mA)

Marinelec integrated functions

- ▶ Navigation light control
- ▶ Fire detection monitoring
- ▶ Emergency order telegraph

Shore connectivity

- ▶ Web viewer
- ▶ Secure remote support
- ▶ Data shore analysis «Ecomer TC»

Gateways

A large range of industrial communication protocols to interface with embedded systems:

- ▶ Navigation network over NMEA0183 or NMEA2000
- ▶ Engines over J1939
- ▶ Power management system over Modbus RTU or Modbus TCP
- ▶ Battery management system over CANopen
- ▶ ETC...

Advanced functions

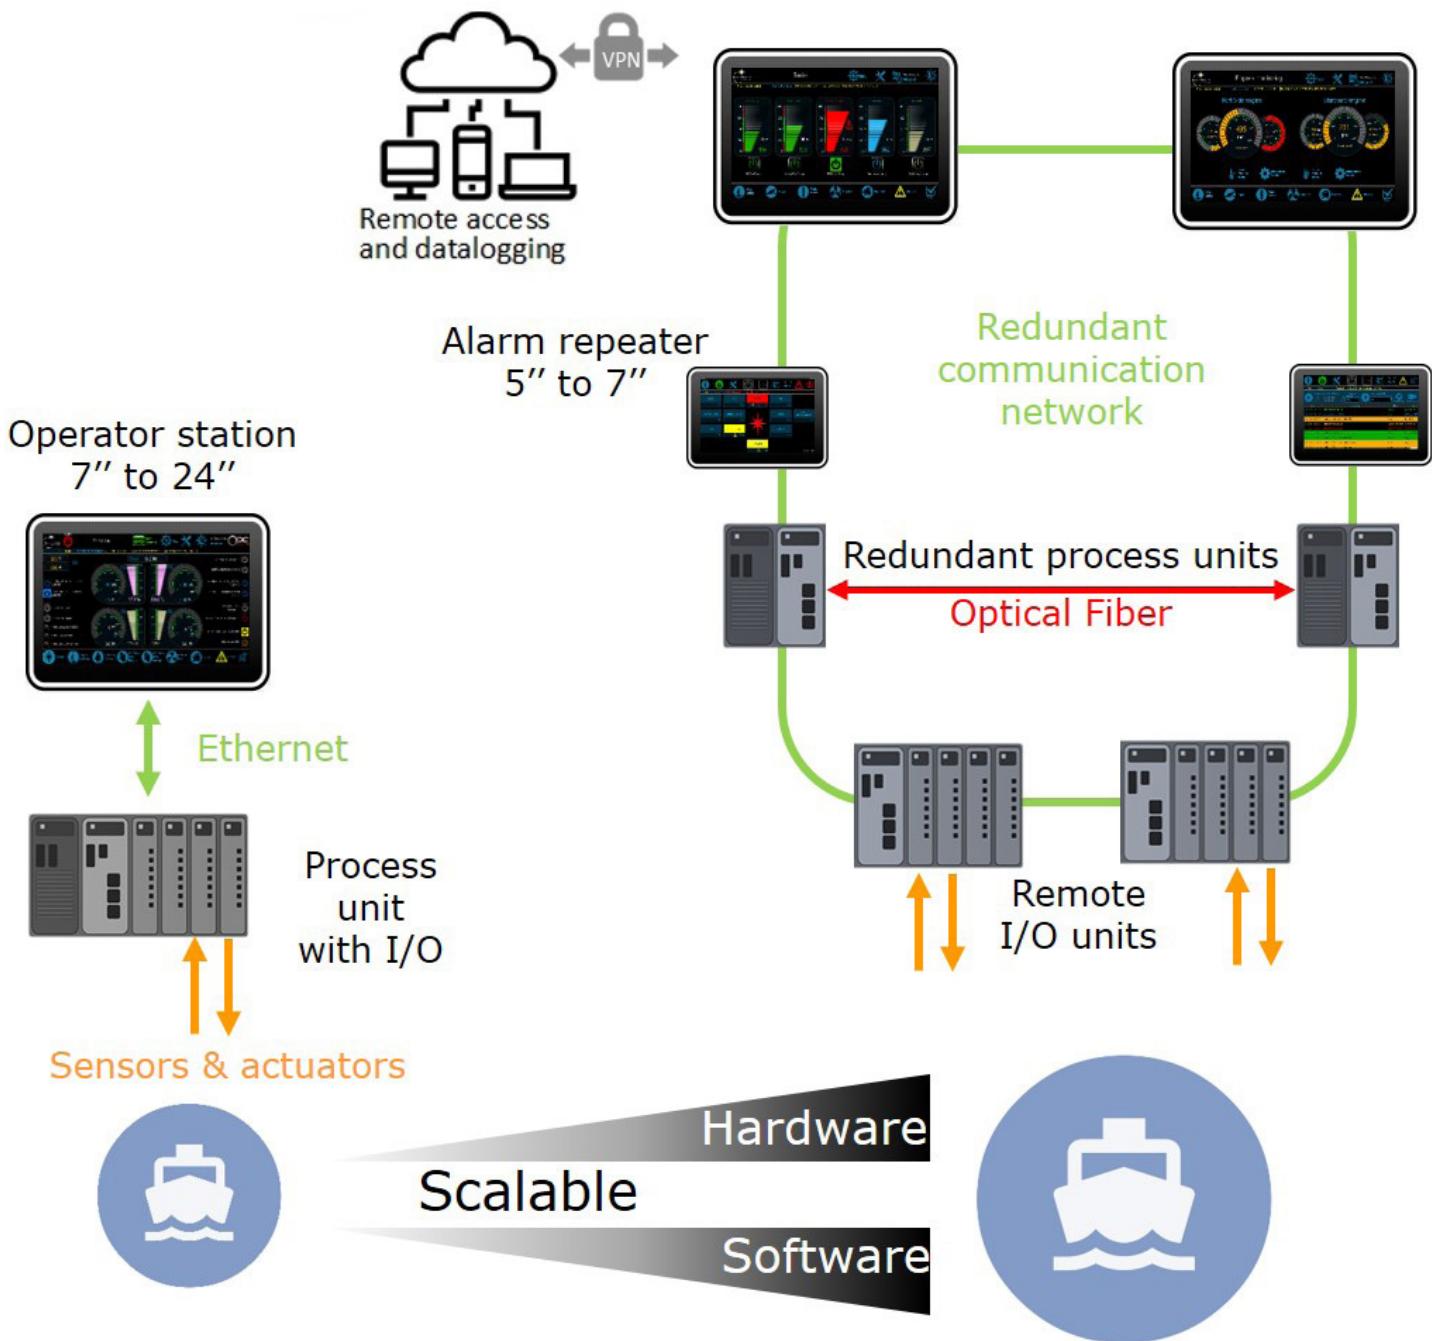

- ▶ Analytic Econometer «Ecomer»
- ▶ Conning
- ▶ Battery management system
- ▶ Power management system
- ▶ Video management

APPROVALS

- ▶ Meets all maritime standards
